WASHBASINS

BALCONY CONCRETE WASHBASIN

ABOUT THE PRODUCT

Balcony is a wall-mounted washbasin made of cast concrete. Designed by Sotiris Lazou Design Studio in 2021.

Its unique design is enhanced by the TERRAZZO finish and a powder-painted stainless steel base incorporated within. Balcony is an elegant basin that adds a prestigious touch to the bathroom. With ergonomic dimensions, it is available with simple stainless steel mounting or with the option of a towel rack, providing additional functionality.

The terrazzo finish is created with cement colors from our basic or optional palette, combined with white or black aggregates. Based on demand, as part of our Zero Waste Project, we can use other color aggregates such as dusty blue, etc.

BULBO CONCRETE WASHBASIN

ABOUT THE PRODUCT

Bulbo is a round washbasin made of cast concrete.
Designed by Valentino Marengo in 2017.

Bulbo presents a design concept influenced by the practicality of ancient objects, drawing inspiration from the Cycladic culture of the Bronze Age. In Cycladic art, wash bowls were crafted with a distinct structure, often supported by three legs. Its distinctive organic shape is what prompted the naming of this basin as Bulbo.

CALDERA CONCRETE WASHBASIN

ABOUT THE PRODUCT

Caldera is a round washbasin made of cast concrete.
Designed by Valentino Marengo in 2017.

Caldera presents a design concept influenced by the practicality of ancient objects, drawing inspiration from the Cycladic culture of the Bronze Age. In Cycladic art, wash bowls were crafted with a distinct structure, often supported by three legs. Reflecting this tradition, Caldera features an organic shape reminiscent of ancient handcrafted artifacts.

Caldera is named after the Greek word meaning a large cauldron-like hollow, formed shortly after the emptying of a magma chamber during a volcano eruption. The volcanic area in Santorini is referred to as Caldera.

OBLIQUO CONCRETE WASHBASIN

ABOUT THE PRODUCT

Obliquo is a round washbasin made of cast concrete.
Designed by Valentino Marengo in 2017.

Obliquo introduces a design concept inspired by the functionality of ancient objects, drawing influence from Egyptian pottery dating back to 3450 B.C. The inspiration came from an unusual bowl with supports shaped like human feet. Obliquo represents the design evolution from the organic shapes of ancient times, to a geometric shape characteristic of our modern era.

The beautiful contrast between these two eras undergoes a transformation, evolving from an organic form to a geometric shape that is characteristic of our modern era.

CIRCUM 39 CONCRETE WASHBASIN

ABOUT THE PRODUCT

Circum 39 is a round washbasin made of cast concrete.
Designed by Urbi et Orbi Studio.

Circum 39 offers a variation of the Circum 48 design, featuring a smaller diameter but slightly increased height. Additionally, we have incorporated a curved inner shape that adds to its aesthetic appeal. The properties of concrete as a base material enhance the minimalist design of the Circum 39 countertop washbasin. The small air holes and the subtle color variations are the small details that shape its character. Ideal for smaller residential and commercial bathrooms, it elevates the space in its own unique way.

CIRCUM 42 CONCRETE WASHBASIN

ABOUT THE PRODUCT

Circum 42 is a round washbasin made of cast concrete. Designed by Urbi et Orbi Studio in 2013.

Undoubtedly, one of the most timeless products in our collection, Circum 42 is a countertop sink characterized by subtle design curves that harmoniously compose its form.

The properties of concrete as a base material enhance the minimalist design of Circum 42 countertop washbasin. The small air holes and the subtle color variations are the small details that complement its aesthetic. Whether in residential or commercial settings, beginning with this basin as a foundation enables the creation of a space with a unique identity.

CIRCUM 3850 CONCRETE WASHBASIN

ABOUT THE PRODUCT

The Circum 3850, designed by Urbi et Orbi Studio in 2023.

It is a tall, round, cast concrete washbasin ideal for a low countertop. A key element of its design is its height and conical shape. As the latest addition to the Circum series, it retains the same distinctive features. The concrete material enhances the washbasin's minimalist design, with small air holes and subtle color variations adding to its unique character. Suitable for both residential and commercial spaces, the Circum 3850 elevates any environment in its own distinctive way. Available from 32 cm to 50 cm in height.

HOLYWATER CONCRETE WASHBASIN

ABOUT THE PRODUCT

Holywater is an oval washbasin made of cast concrete.
Designed by Sotiris Lazou Design Studio in 2019.

The oval shape combines ergonomics with elegance and includes a built-in side ledge, offering practical storage space for toiletries and accessories. The pattern inspired by perforated metal panels used in architecture in the past, expresses a distinctive character and a story. Available in two monochrome color options. Ideal for residential and commercial bathrooms, it elevates the space in its own unique way.

It is available in 2 sizes, combining 4 shades from the gray palette, in various colors from warm and cool tones of beige, terracotta, khaki, dusty blue etc.

SIMAN CONCRETE WASHBASIN

ABOUT THE PRODUCT

Siman is an oval countertop basin designed by Gian Paolo Venier in 2019. Made of cast concrete.

The name comes from the Farsi term “siman”, which means cement. Marked by the iconic pleating, inspired by the ancient Toghrol tower, situated near Teheran (Iran), it creates an everchanging game of shadows and depths. Siman carries a strong sculptural identity. Siman populates interior landscapes with a highly graphic and timeless personality, casting a new light on concrete. Ideal for bigger residential and commercial bathrooms, it elevates the space in its own unique way.

IMMISSIO 50 CONCRETE WASHBASIN

ABOUT THE PRODUCT

The Immissio 50 countertop basin is a recent addition to the successful Immissio series. Designed by Urbi et Orbi Studio in 2020.

Immissio is a flexible countertop washbasin designed in dimensions ideal for bathrooms, especially those with limited space. The internal curves of Immissio 50 introduce a nuanced variation to its original design characterized by straight lines. The contrast between its rectangular outer edges and inner curved corners stands out, particularly with brighter color selections from the Urbi et Orbi palette, rendering it ideal for both residential and commercial spaces.

IMMISSIO 70 CONCRETE WASHBASIN

ABOUT THE PRODUCT

The Immissio 70 is an addition to the successful Immissio series.
Designed by Valentino Marengo in 2017.

Immissio 70 stands out with its shorter height yet extended length compared to the rest of the series, making it particularly suitable for spacious bathrooms, whether in residential or commercial settings. It is a rectangular countertop basin that combines a contemporary design with the unique character of concrete, evoking an elegant and timeless aesthetic.

IMMISSIO 70 CONCRETE WASHBASIN

COLORS

BASIC

OPTIONAL

Colored in its mass with pigments

Every piece may exhibit color variations on its surface, as well as among other pieces of the same product or sample products.

The concrete surface exhibits surface voids that are caused by the air. This is a natural property of concrete. This is only visible on the external side of the washbasin.

SPECIFICATIONS

Size: 70 x 45 cm

Height: 15 cm ($\pm 2\%$)

Depth: 10-12 cm

Weight: 37 kg ($\pm 2\%$)

IN VIVO 60 CONCRETE WASHBASIN

ABOUT THE PRODUCT

In Vivo 60 is a rectangular washbasin made of cast concrete. Designed by Urbi et Orbi Studio in 2013.

Derived from Latin, 'In vivo' translates to 'within the living'. For us it metaphorically describes the distinctive pattern on the basin's outer sides, a result of its unique production method. Rather than using conventional molds, for 'In Vivo' we employ a process called formwork, where we utilize wooden bars for molding. This technique impeccably captures the industrial character of concrete.

ORILLA CONCRETE WASHBASIN

ABOUT THE PRODUCT

Orilla is a square washbasin made of cast concrete.
Designed by Markus Kurkowski in 2021.

ORILLA countertop washbasin offers a stylish addition to your bathroom. This innovative design has EARNED 3 AWARDS. Its standout feature is undoubtedly the concrete valve, meticulously crafted to complement both the color and shape of the basin perfectly.

PLURA TERRA CONCRETE WASHBASIN

ABOUT THE PRODUCT

Plura Terra is a rectangular washbasin made of cast concrete.
Designed by Urbi et Orbi Studio in 2018.

The Plura washbasin derives its name from the concepts of plurality and diversity, reflecting its adaptable nature. Using a unique multiform mold, we offer Plura in various dimensions, tailored to demand, while keeping costs lower by avoiding the need for multiple molds, in both a countertop or wall-mounted version.

The sink, or concave part of the Plura washbasin, maintains fixed dimensions. External dimensions of the Plura washbasin can vary, with lengths ranging from 70 to 150 cm, widths from 43 to 50 cm, and a fixed height of 12 cm.

The Plura Terra basin can be installed on countertops, or on the wall, with the option of having a faucet hole on top.

The terrazzo finish is created with concrete colors from our basic or optional palette, combined with white river pebbles. Based on demand, as part of our Zero Waste Project, we can use other color aggregates (not pebbles) such as black, dusty blue, etc.
