## EROSION

# EROSION

## ABOUT THE PRODUCT

The Erosion shower tray designed by CTRLZAK design studio, for outdoor use and features distinctive grooves as if water eroded them over time, allowing the water to flow while not accumulating. The surface also incorporates stone-like elements that emphasize the natural reference of the soil holding onto the original design concept.

Inspired by natural geological formations. It captures sedimentation, erosion, and volcanic activity through stacked layers, symbolizing the passage of time. The design references the Mediterranean region's diverse landscapes and geological phenomena, encouraging reflection on our perception of time through geology and the natural world.

## COLORS

### BASIC

### OPTIONAL

### COOL & WARM

Colored in its mass with pigments

Every piece may exhibit color variations on its surface, as well as among other pieces of the same product or sample products.

The concrete surface exhibits surface voids that are caused by the air. This is a natural property of concrete. This is only visible on the external side of the washbasin.

## SPECIFICATIONS

Indoor/ Outdoor

Size: 80x80 cm

Height: 10 cm

Depth: 4 cm
