STRATA HANDLES

STRATA HANDLES

ABOUT THE PRODUCT

Strata designed by CTRLZAK design studio.

Coming in three various sizes, the Strata knob-hangers focus on the theme of erosion, with cavities affecting the sides of the volumes, and creating prehensile surfaces all-around. Each piece is unique and different, holding onto the design concept.

Our suggestion for this item is that, apart from using it on cupboards or doors, it could also be mounted on your bathroom or living room wall, as the “Strata” can double as a unique hanger.

Strata series was designed by CTRLZAK as part of the Medius Terra collection and is inspired by natural geological formations. It captures sedimentation, erosion, and volcanic activity through stacked layers, symbolizing the passage of time. The design references the Mediterranean region's diverse landscapes and geological phenomena, encouraging reflection on our perception of time through geology and the natural world.

COLORS

COOL

WARM

Colored in its mass with pigments

Every piece may exhibit color variations on its surface, as well as among other pieces of the same product or sample products.

The concrete surface exhibits surface voids that are caused by the air. This is a natural property of concrete.

SPECIFICATIONS

Ø9.5
